

The company CETIN expects its results for the year 2019 will be in line with the long-term trend

22 January 2020

The company CETIN a.s. ("**CETIN**") expects **its financial results for the year 2019 will be in line with the long-term trend**, established by the published results of the previous years and of first half-year 2019.

Following the first indicative information regarding the full year 2019 the company CETIN expects in the domestic network services segment the revenues approximately at the level of previous year, the revenues from so called mass services and revenue from data services were stabilized. CETIN expects slight growth of margin within the services of international voice transit especially due to increased volume of transited minutes in traditional and new destinations. The year-on-year increase of margin is contributed particularly by increase of revenues from services of building and operation of mobile access network. The company CETIN has continued boosting strategic investments to the development of new generations of fixed and mobile networks.

The audited CETIN's financial results of the year 2019 in full are going to be published as a part of CETIN's Annual report for the year 2019 which is expected to be released during the beginning of March 2020.
